OPERAS

Do you need funding for your research project in a Social Sciences and Humanities discipline? Run your Social Sciences and Humanities (SSH) research crowdfunding campaign on wemakeit with the OPERAS channel, get tips from the wemakeit experts to boost your campaign and benefit from the support of the OPERAS community.

Whether you are an early career researcher in a university or other research institution, an independent researcher, or an established scholar looking to start a new line of research, the wemakeit platform is for you, supported by the OPERAS Research Infrastructure. No matter if you need funds to publish critical editions, to organise scientific exhibitions, to launch surveys and studies with local or global impact, the OPERAS channel is the way to go!

Are you ready? Plan your campaign, get support from the crowd, and boost your research!

[Start a project](#)

You will find the conditions for participation and more information in the FAQ below.

Interested in launching a campaign but do not know where to start? Register for free to the 1-hour webinar organized for researchers in the SSH on Thursday 13th January 2022 at 5pm CET. After the workshop, our science crowdfunding specialists will be available to answer your questions.

If you have further questions, please send us an email at operas@wemakeit.com.

Digitizing Farming in Kenya

SOKO is an agriculture startup that aims to digitize sheep farming. It will empower smallholder farmers to make a living from raising healthy sheep and sell them without going through intermediaries.

A crowdfunding project by [Sabine Godinez](#) and [Mwangi Maina](#), [startup](#), [agriculture](#), and [technology](#), [Kenia](#).

 SOKO - Be Part Of The Solution

Regarder sur  YouTube

 0  1  0  0  15 

What is our solution?

Producing food in a country of 50 million people is an uphill task, especially when farmers are practicing traditional farming. SOKO likes to change that. Our aim is to equip sheep farmers with scientific tools. Key area of focus is genetically aimed breeding, online farm management, VetCare and real-time information sharing through free notifications. Our free app and website will equip farmers with new and innovative scientific tools that are currently not offered to them.

SOKO has acquired a farm just outside of Nairobi city. Here we like to set up a smartfarm, a new way of farming that takes advantage of existing mobile technology in Kenya. While working with a team of vets and software developers, SOKO intends to breed healthy sheep while recoding the data in the Soko App and user-friendly website.

Useful tips

A person is shown from behind, in a starting crouch on a red running track. They are wearing a grey tank top and black leggings. Their hands are on the track, and their feet are in a starting position. The track has white lane lines and a white arrow pointing forward. The text "Plan in advance, the approval process may take some time." is overlaid on the image.

what is crowdfunded?

A word cloud of various categories crowdfunded, with words in different colors and sizes. The words are arranged in a circular pattern around the center. The colors used are red, blue, and green. The sizes of the words vary, with some being larger than others.

Categories listed:

- dance
- fashion
- games
- journalism
- technology
- music
- graphic novels
- environment
- festivals
- fair trade
- cooking
- books
- agriculture
- education
- theater
- startup
- politics
- film
- photography
- sport
- design
- exhibitions
- social
- architecture

what is crowdfunded?

The word cloud features the word "Science?" in a large, bold, orange font at the center. Surrounding it are various other terms in different colors and sizes, including: "dance" (orange), "fashion" (blue), "games" (green), "social" (blue), "journalism" (green), "architecture" (green), "exhibitions" (orange), "music" (orange), "technology" (blue), "design" (orange), "graphic novels" (blue), "environment" (blue), "festivals" (blue), "fair trade" (green), "sport" (orange), "cooking" (blue), "books" (blue), "photography" (blue), "art" (green), "education" (orange), "agriculture" (green), "film" (green), "politics" (orange), "startup" (green), and "theater" (blue).

Vous avez fait quoi en 2018? L'actualité, elle, a pas pris de vacances: entre F. Melgar (qui a pris cher) ou le Lausanne-Sport (qui est relégué). En novembre, on débriefe ça au Théâtre de Boulimie.

A crowdfunding project by Revue de Lausanne, politics, performing arts, and art, Lausanne.

STORY

Quiquoicomentquandpourquoi?

Bonjour l'outil Internet, ici Blaise Bersinger.

Dès le 3 novembre, et jusqu'à la fin de l'année**, on va faire une revue lausannoise avec des copains (et vous dans la salle). Concrètement, on va rigoler de l'actualité de l'année écoulée. Ce qu'il s'est passé à Lausanne, dans le canton de Vaud, en Suisse, dans le monde, dans l'univers, et peut-être même à Romanel.

On jouera au théâtre de Boulimie, au centre ville de Lausanne. Donc aucune excuse pour ne pas venir entre deux bières anglaises, pas forcément anglaises, au Great ou trois tartines d'avocat aux avocats sur leur lit d'avocat, au Pointu.

** on fera peut-être des prolongations si vous êtes sages (et nombreux).

initial results to probe interest

BUILD YOUR OWN CAMPAIGN!

the kit

- choose your project
- build a pitch
- build a story
- find your audience
- imagine rewards
- draft a budget
- communicate
- run your campaign
- communicate more
- and more..

BUILD A PITCH, BUILD A STORY

- **title of the project**
- **why you?**
- **short description (max. 700 characters)**
 - what your project is about?
 - clear goals
 - find a *personal* connection to the project

BUILD A STORY

3-4 paragraphs

- **context**
 - who you are and what you are trying to achieve
- **arguments**
 - why you need the money and why should they help you
- **technical aspects**
 - for the geeks out there

FIND YOUR TARGET AUDIENCE

- define **6 communities** (homogeneous group of people) that could be interested in your project
- **for each community**
 - why they should be interested? (hook)
 - how much can they afford?

WHAT ARE THE REWARDS?

make a **list of rewards** and their respective costs and value

- introduction to the research life (e.g. lab visits, field trip)
- a part in the project, in way similar to Citizen Science
- merchandising or personalized gifts
- privileged access to the results, private presentation
- funny, crazy experience or object related to your research
- anything really!

WHAT IS YOUR BUDGET?

How much money do you wish to raise from the crowd?

→ always choose a realistic funding goal

What is the total budget of your project?

→ don't forget the campaign has a cost

What will you use the money for?

→ important for transparency

YOUR COMMUNICATION STRATEGY

- **Channels**
 - How can you reach each community?
 - media, people, places, websites
- **Content**
 - text, images, video, etc.
- **Timing**
 - plan your campaign step by step

Don't be shy! Give it a try!

Get in touch! We're here to help
